

Grosvenor Contracts Disposable Curtains

Our disposable curtains are manufactured to the highest standards of quality; They are designed to withstand heavy real-world usage and keep their integrity and appearance for longer.

With over 30 years in the industry, we have encountered every challenge faced by the healthcare environment when it comes to managing curtains and have successfully delivered on many high value multi-hospital contracts.

Trusted NHS Supplier

With extensive industry experience Grosvenor Contracts is a supplier and installer of disposable curtains, tracks, blinds and window film in the healthcare sector accross the UK.

Quality & guarantee:

Our disposable cubicle curtains are manufactured with a four point quality check and rigorously tested. We are ISO 9001 and 14001 accredited.

All maintenance and fitting is undertaken by Grosvenor Contracts' Service Delivery Technicians who are highly qualified, government security cleared, enhanced CRB checked and PASMA trained.

BENEFITS OF GROSVENOR

	
Grosvenor Patented snap-fix hooking system	✓
Heat sealed front pleat to improve durability	✓
Tieback with Button fixing	✓
Heat sealed privacy labels at both ends of curtains	✓
Curtains & fixings made from 100% recyclable polypropylene	✓
Bespoke curtains sizes available	✓
Fully Managed Fitting Services	✓
10 different color options	✓
Recycled packaging & boxes of 10s	✓
Contract or ad hoc pricing	✓

INFECTION PREVENTION CONTROL

Our disposable curtains eliminate infection control risks by forgoing Velcro or fabric stitching. Unlike traditional fabric curtains, which can harbor harmful bacteria and require frequent cleaning, our curtains provide a hygienic solution without compromising on durability.

ORDERING PROCESS

Available on All Frameworks:

- NHS
- CSS
- NHP
- CP
- SPS

Framework Number: 2021/S 000-015456

Accessible through NHS Supply Chain (supply only) or directly from us (supply & install or supply only), we are confident that our disposable cubicle curtains excel in combating HAIs (Hospital Acquired Infections) and provide the best value for healthcare providers.
